

SESSION SUMMARY

SG1J

SG1A

SESSION: 05FEB88-1026-1140

COORD: 

We have a structure. Within this structure is a key person. His wrists felt as if they were ~~bound~~ with strips of cloth or tape. "Hands feel swollen and in pain... as if circulation is being restricted." This was a "real-time" feeling. I definitely perceive that this person is alive at this time.

Associated with this target are the colors green, gold, red and black, a pair of crossed scimitars, and an ~~evil~~-looking, haggard, old man with a beard and turban (AOL - Ayatolla Khomeni). see sketch, p. 4

The structure is old, but clean, with high ceilings, and white walls. There is a lack of color or decoration here. It is very spartan. (AOL - like an old european hospital). see sketch, p. 5

The key person can be described as being a tall (at least 6'), large-boned; reddish-brown, wavy hair with streaks of grey; a large squarish face and jaw; light colored eyes of blue or grey. see sketch, p. 6
